

REACH Academy Progression Framework

Reach Academy is committed to delivering an Enrichment, Careers and Employability programme that runs throughout our pupil's school journey from year 3 to year 13. We are passionate about our age appropriate activities for each year group and are proud to be working with our pupils and their families to ensure that they are developing all of the skills and knowledge that they will need to lead the happiest possible life after school.

We challenge stereotypes, raise aspirations and advocate equality. We ensure that every single child receives opportunities through pastoral focus and curriculum learning that are specific to them so that they can make well informed decisions about their future further education and career decisions.

In years 3 to 7 we want pupils to have fun investigating possible employment options, whilst encouraging the **joy** of learning about the opportunities that lie ahead. Pupils in phase 2 & 3 will work towards the Reach Award and participate in a varied enrichment programme.

Pupils learn the skills of resilience and confidence and develop own passions.

In year 8 we build **independence** in our pupils by encouraging them to enjoy the process of adopting life and work skills that will help them live a happy and fulfilled life.

Pupils acquire knowledge about careers and the impact of making option choices and decisions.

In year 9 our pupils choose their options therefore it is our key objective to **inform** pupils on how different subjects link to further education and future careers. We help our pupils reflect on all the options they have.

Pupils can articulate all post 16 options and identify most suitable to them.

In year 10 pupils use all the knowledge that they've acquired to consider **progress** routes after year 11. We work together to identify strengths and weaknesses in skills and academic studies to create an action plan for the future.

Pupils can set challenging yet realistic learning and career goals.

In year 11 we encourage **aspirational choices**. Pupils decide on further education and are guided through the application process for their chosen route. Plans are revisited to ensure they're on track to get the grades need to move into the next phase of their life.

Pupils have rationale for post 16 choices and can align with their future ambitions.

In Sixth Form pupils reflect on chosen pathway by exploring various paths that link to their studies. They'll be offered a tailored provision. In year 13 they'll have a clear vision of which route they'll take and what they need to do to be successful.

Pupils understand qualifications they need to pursue post 18 preferred pathway & evaluate progress in gaining them.

Our robust Careers Programme has been structured to achieve all 8 of the Gatsby Benchmarks of Good Career Guidance, in order to ensure our pupils are prepared for Further/Higher education and the world of work, upon leaving school.

The eight Gatsby benchmarks of Good Career Guidance are:

1. A stable careers programme
2. Learning from career and labour market information
3. Addressing the needs of each pupil
4. Linking curriculum learning to careers
5. Encounters with employers and employees
6. Experiences of workplaces
7. Encounters with further and higher education
8. Personal guidance

(Sir John Holman, The Gatsby Foundation, 2013)

Year 7: Have Fun

Gatsby Benchmark	Activity	Description	Cycle
4	Assembly to excite pupils about employment	Bright Futures Ahead Day	Cycle 1
1, 2, 3	Online careers skills development through use of Unifrog platform.	Pupils have regular mini lessons using the Unifrog resources.
